

Eligibility

The Canon eCarePAK Extended Service Plan (the "eCarePAK") is provided by Canon U.S.A., Inc. ("CUSA") with respect to the Canon product, and the service(s) (Repair or Replacement and/or Installation), identified on your eCarePAK Certificate of Registration for which the eCarePAK has been purchased (the "Covered Product"). CUSA reserves the right to verify the information you provide to CUSA in connection with your registration for the eCarePAK and may reject your enrollment. The purchase of an eCarePAK is not required either to purchase the Covered Product or to obtain financing for the Covered Product.

Activating the eCarePAK

If you do not agree with the Terms and Conditions of the eCarePAK, you may cancel and obtain a refund in accordance with the section entitled "Ability to Cancel and Right to Refund" below. The eCarePAK becomes effective when CUSA registers your Covered Product. You may purchase an eCarePAK within the term of the CUSA Limited Warranty for the Covered Product, or before any existing eCarePAK covering the Covered Product has expired. However, if you decide to purchase after the Limited Warranty has expired, or after any existing eCarePAK on the Covered Product has expired, CUSA reserves the right to inspect the Covered Product, at your expense, and to refuse to register your Covered Product in its sole discretion, if it does not meet CUSA's requirements for coverage under an eCarePAK. An eCarePAK Certificate of Registration will be sent to you upon registration of your extended service plan and/or preventative maintenance plans.

Coverage

Coverage under the eCarePAK will begin effective on the expiration date of the original CUSA Limited Warranty or existing eCarePAK for the Covered Product, as applicable, and continue until the expiration date indicated on your eCarePAK Certificate of Registration. The period between the effective date of coverage under your eCarePAK and the expiration date indicated on your eCarePAK Certificate of Registration is referred to herein as the "Term". THIS IS NOT A CONTRACT OF INSURANCE.

For WG Series Inkjet Printer the Term is further limited to a maximum of 300,000 printed pages. Should the covered unit exceed this maximum printed page count, the eCarePAK will be expired regardless of the end date printed on the eCarePAK Certificate. All repairs requested beyond this 300,000 printed page limit will be treated the same as out of warranty repairs.

Repair or Replacement Service

1. Subject to the limitations set forth in "Service Limitations" below, CUSA agrees to repair or replace, without charge, any defective part in your Covered Product with a new, rebuilt, or different, part during the Term of the eCarePAK, provided such part is the same as, or functionally comparable to, the defective part removed. Any parts that are replaced will become the property of CUSA. Replacement of parts will not extend the Term of the eCarePAK. Likewise, if CUSA should replace the Covered Product, the original Covered Product will become the property of CUSA. Coverage under the eCarePAK will automatically transfer to the replacement product but will not extend the Term.

2. The eCarePAK is valid only for service of a Covered Product purchased and used in the 50 United States and District of Columbia. The eCarePAK is not transferable to another Covered Product except as provided in paragraph 1 above.

3. For Oregon and Montana Residents only: This Extended Protection (Service) Plan is insured by a contractual liability insurance policy issued to Canon U.S.A., Inc. by Sompo Japan Insurance Company of America ("Sompo Japan"), 11405 N. Community House, Suite 600, Charlotte, NC 28277, 704-759-2200.

Obtaining Repair or Replacement Service

As a condition to obtaining service under this eCarePAK, you must first troubleshoot your Covered Product's malfunction in good faith with CUSA's technical support team. If CUSA cannot fix the Covered Product's malfunction through remote diagnosis, CUSA may choose to either (1) exchange your Covered Product through CUSA's advanced exchange service program, (2) schedule an on-site service call through an independent CUSA Authorized Service Provider (the "Service Provider"), or (3) refer you to a CUSA Authorized Service Facility ("ASF") (Carry-In), all as more fully described below. The service option chosen is in CUSA's sole discretion. Not all options may be available at the time service is requested.

1. Advanced exchange service program: CUSA may elect to service your Covered Product through its advanced exchange service program. Under the advanced exchange service program, a defective Covered Product will be exchanged for a comparable new or refurbished Covered Product at Canon's sole discretion. You will be required to provide a ship-to location (street address only) for the replacement product. If required, installation of the replacement product will be performed by the Service Provider. You may be required to sign a form to guarantee the return of the defective unit and provide a valid credit card authorization. You must retain the replacement product packaging to ship your defective Covered Product back to CUSA. If you do not return your defective Covered Product to CUSA by the date and in the manner specified by CUSA, CUSA may cancel your eCarePAK and invoice you for the full replacement cost of a new Covered Product, or charge your credit card for this cost.

2. Service Provider: In the event that CUSA's technical troubleshooting cannot resolve your problem, CUSA may elect to send a Service Provider to your location in an expedited manner to facilitate the repair of your Covered Product.

3. ASF Program (Carry In): Under CUSA's ASF Program, the defective Covered Product is repaired by an ASF and then returned to you. The CUSA representative will direct you how to obtain the name and phone number of the ASF nearest to you. You must contact the ASF to schedule the repair. **DO NOT INCLUDE ANY OTHER ITEMS WITH THE COVERED PRODUCT.** Covered Products will be repaired and returned to you without charge by the ASF.

Any Covered Product received by CUSA or an ASF that is not covered by this eCarePAK will be returned to you unrepaired at your expense or, at the discretion of CUSA or the ASF, you may receive an estimate of repair at CUSA's or the ASF's then prevailing service rates. You will also be charged for on-site repairs not covered by this eCarePAK at CUSA's then prevailing service rates.

FOR OREGON RESIDENTS ONLY: Upon CUSA's failure to perform under this eCarePAK, Sampo Japan Insurance Company of America shall pay, on behalf of CUSA, any sums CUSA is legally obligated to pay or shall provide the service that CUSA is legally obligated to perform, according to CUSA's contractual obligation under this eCarePAK issued by CUSA, and Sampo Japan Insurance Company of America will pay claims against CUSA for return of the unearned purchase price of your eCarePAK.

All repairs requested beyond this 300,000 printed page limit will be treated the same as out of warranty repairs.

Installation Services

Installation service is available only for installation of a replacement product for your Covered Product if such replacement product is authorized under the terms of this eCarePAK.

The following terms and conditions apply to installation services:

1. Installation technicians may, in their sole discretion, refuse to install Covered Products that are incompatible, are, or appear to be, damaged, are inappropriate for installation, exhibit signs of excessive wear or are deemed unsafe. Covered Products which are not new, or are damaged, will be documented before the installation begins. You may be subject to additional charges should the installation technician conclude that the proposed installation is unsafe and therefore cannot be completed.

2. A pre-existing power outlet(s) must be accessible in order to install your Covered Product.

3. Installation services are only available in the 50 United States and the District of Columbia. Extra charges may apply in the event special travel is required to reach the installation site.

4. Extra charges may apply in the event additional work is necessary to complete the installation, including, but not limited to, carpentry, electrical work, floor covering modifications, moving of furniture, or additional wire, parts and/or accessories.

Cancellation requests are not valid until confirmed by CUSA and/or a Service Provider.

7. You must ensure that the Covered Product(s) to be installed, the installation site, and the hardware and accessories required to facilitate and complete your installation, are prepared and ready prior to the arrival of the installation technician. You may be subject to an additional charge for failure to prepare the Covered Product, the installation site, or the required hardware and accessories prior to the arrival of the installation technician.

8. You must move or rearrange furniture to provide accessibility and a safe, adequate work space for the installation technician.

9. You must provide a sufficient amount of power, power sources, power cords and, if applicable, surge protectors that are readily available to the installation technician and/or safely accessible to the installation site. The installation technicians will not move or install AC power sources or feeds of television signals from cable, satellite or other sources.

10. You must retain the packaging materials your replacement product was shipped in (see "Obtaining Repair or Replacement Service" above). Although the installation technicians will clean up the work site, it is your responsibility to arrange for the final disposal of any packaging materials or trash related to the installation.
