

1. Print out our free template.
2. Cut out the square space that frames the snowman.
3. Fold the paper in half, so that the snowman faces are up. The paper will be in the shape of a triangle.
4. Turn the triangle over.
5. Take the lower right corner and fold it up to the top point so that you can see the snowman's face.
6. Do the same with the lower left corner.
7. Unfold the corners so you're looking at a blank triangle again.
8. Take the front sheet of the top triangle and fold it down so the tip touches the bottom straight edge of the paper.
9. Then, take each of the snowman folds and tuck them into the little pocket of paper above.
10. Now, you've created a holiday bookmark that will snugly hold your place!
